

Medical Interpretation for the Geriatric Patient

Date: Wednesday, December 2, 2020

Time: 6:00 p.m. – 8:00 p.m.

Location: Online through ZOOM Platform (Zoom link will be provided one day prior to the workshop after successful registration and payment)

Workshop Fee: \$30.00

CEU Fee: \$40.00 (\$36.69 fee + \$3.31 service fee)

Credits/Contact Hours:

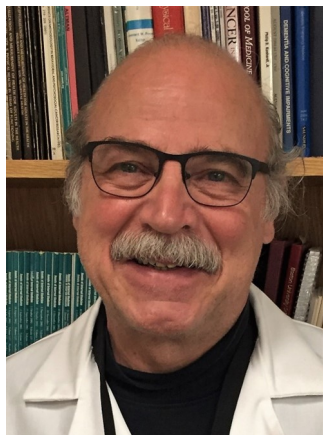

CCHI/IMIA: Application for continuing education credits has been submitted and pending approval.

Description: The talk provides discussion of geriatric issues including differences in clinical diagnoses, possible structures of the interview, and possible locations of the encounter.

Learning Objectives: At the conclusion of this session, participants will:

1. Be able to identify and become more familiar with details involving geriatric problems like dementia, incontinence, falls;
2. Acquire skills to interpret standardized cognitive and functional assessments;
3. Be able to analyze situations which includes family members with potential role confusion;
4. Demonstrate increasing need for professional interpreters in sites like nursing homes.

About the Trainer:

Dr. Eric Hardt is a retired BUSM Associate Professor, graduate Yale '70 and Tufts Med '74, certified in Internal Medicine, Oncology, Geriatrics, and Palliative Care. Dr. Hardt's activities in the area of medical interpretation are well known around the country, including educational materials and sessions for interpreters and clinicians.

Dr. Hardt was a founding member of the MMIA/IMIA and of the NCIHC, served on Board of Directors for the National Board of Certification for Medical Interpreters. For decades he served as Medical Consultant to Interpreter Services at BCH/BMC. In 2019 he joined the Found in Translation Board.
