FOR MEDICAL INTERPRETERS

Pioneers in the Industry

ANNIVERSARY

CELEBRATING 10 YEARS OF DISTINCTION

GO-LIVE ANNOUNCEMENT

OUR Hub-CMI CREDENTIAL HAS ARRIVED!

Dear Interpreter Community:

The National Board is pleased to announce the launch of
The Hub-CMI Credential.

hub: /həb/

noun

1. The effective center of an activity, region, or network.
2. For the NBCMI credentialing, the **Hub-CMI** is the single destination for medical interpreters of all languages, who are interested in pursuing a prestigious credential under the CMI umbrella, or those interested in becoming a CMI.

The Hub is a written test available for **all languages** starting on May xx, 2020. It will be easily accessible online with onsite options once it is safe.

Every qualified medical interpreter in any language will have access to take this test and obtain the Hub-CMI credential. For those six languages already certified, the HUB-CMI interpreter will have the opportunity to continue growing, taking the next step towards the CMI credential.

We have a limited-time offer for the first 25 new candidates registering during the 2 weeks opening period, and for those who already passed the written test as well. For more details and information, please visit our website:

<https://www.certifiedmedicalinterpreters.org/>

With sincere appreciation,

NBCMI Directors and Staff
