

# Sample Provider Script

- What name would you like me to call you?
  - Do you want that to be part of your medical record so that other people call you that, or just me?
- So I have some questions related to sexual orientation and gender identity that I ask of all of my patients. Are you comfortable if we go over those questions?
  - Anything that I edit on this form will be visible to those people who have access to your medical record. If there's anything that you don't want me to report, I don't have to.
  - Let's go over this form and see what we need to update and change:
    - » Sexuality
    - » Legal information
    - » Gender Identity
      - Current gender identity
      - Sex assigned at birth
      - Pronouns
    - » Organs inventory– Does this look correct to you?
    - » Sexual Orientation – Do any of these words best fit your sexual orientation?
